TravelHost mission

As The Premier Destination Resource to Travelers, TravelHost was founded in 1967 as a response to a request from a general manager of the Marriott Hotel in Dallas, Texas to provide a better, local in-room resource for travelers. Ever since, over 3 billion travelers have used TravelHost as their premier destination resource. Locally, we provide the resources to travelers that help them discover the best that Arizona has to offer. From providing guidance on destinations of interest to reviews and location information, we share the “must do” activities and “must see” places in Arizona.
